SUITS

large homes & workshops

15 micro-grid

The lithium PLUS micro-grid range offers an all-in-one solution for reliable, safe and climate controlled outdoor battery storage and system control.

The micro-grid fifteen is ideal for large homes or workshops and will allow you to run multiple household appliances simultaneously.

It features multi tracker input allowing the solar panels to be split in four arrays facing completely different directions. This means you can get consistent solar throughout the day, if required.

The external touch screen display offers full system visibility and control without needing to open the unit. Should you require tech support this system allows remote troubleshooting or programming if necessary.

Its so simple to install, your electrician shouldn't even need to open the doors until it's ready to switch on!

battery storage

Modular ZYC batteries allow you choose the storage solution that suits your needs now, with the opportunity to grow your system in the future.

Starting unit comes with 4 modules (20kWh) with space for up to 10 modules (50kWh).

20 to 50 kWh

	with Fan	with A/C
Starting from	\$37,100	\$39,400
Additional Modules	\$2,695	each
